DETAILED ACTION

Response to Amendment

1. This is a seventh office action in response to applicant's amendment filed, 25 April 2005, of application filed, with the above serial number, on 19 February 1999 in which claims 1, 6, 14, and 17 have been amended.

Allowable Subject Matter

2. Claims 1-22 are allowed.

3. The following is an examiner's statement of reasons for allowance: Applicant has amended the claims to include limitations of providing direct processing access between an application user and a plurality of application servers on a single network having queues assigned to a predetermined portion of the application servers. In addition, a storage has a queuing mechanism to set up additional queues, including state information of outgoing data, without causing any interrupts in existing running programs. Also, an interface between the queues and user is established and an independent interrogator for examining queues to transfer requests, responses, and data between servers and user. The prior art of record fails to teach or suggest individually or in combination the claimed limitations. Therefore, claims 1-22 are allowed over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
